Profile

I have a strong interest in technology industries, but particularly in the area of interactive technologies and creative software. Working with both hardware and software relating to video, audio and graphics is a passion of mine and I aim to find a position where I can combine much of this. I have a background in teaching and hope to continue in this role.

Experience

Lecturing & Tutoring, Swinburne University Hawthorn, Victoria 2005 - Present

Tutoring and lecturing classes in the following subjects:

- Journalism Practice 2
- Digital Video and Audio (Undergrad and Post-Grad)
- Multimedia Technology
- Digital Media Project (supervision of Undergraduate and Post-Grad groups)
- Digital Compositing (Undergrad and Post-Grad)
- User Experience Design
- Multimedia Project Management
- Multimedia Applications
- The Internet and WWW (Undergrad and Post-Grad)

I have also been heavily involved in the setup of the Swinburne TV Studio.

Digital Production Coordinator, Box Hill Institute Box Hill, Victoria 2009 - Present

Coordinated photography, video, animation and related productions to create a variety of content for the marketing department of Box Hill Institute.

Photography and Video Production, Incant Studios Melbourne, Victoria 2001 - Present

Completed a variety of projects including corporate and portrait photography, wedding and corporate videography, motion graphics and training. Much of this can be seen at www.incant.net

Salesperson, Dick Smith Powerhouse Southland, Victoria 2005 - 2010

Working as a sales assistant specialising in computing and entertainment technology. While working 2.5 days a week I have maintained a position in the top 20 salespeople in the company.

1999 - Under 18's Most Disciplined Football Player for Local Team

Personal Interests

- Computers, Internet and General Technology
- Music
- Wine, Spirits & Beer
- Football & Tennis
- Working on short films

Demonstrated Skills

I have lead groups on video and website projects, delivered lectures, tutorials and laboratories as well as supervised final year students.

Communication skills have been developed through working with a variety of clients and also training members of various organizations on using computer hardware and software. I have taught a wide variety of students with different backgrounds and different learning abilities. This includes students with low levels of english proficiency and I have tutored deaf students in two semesters. Working at Dick Smith Powerhouse I have experienced a wide variety of customers and learned to communicate complex features of products in a simple way. I have also studied professional communications at university.

Growing up on a farm I also developed a variety of practical skills from driving vehicles to operating light and heavy machinery. I can use these hands on skills if need be.

I pride myself on being a quick learner and I have the ability to learn new applications quickly. I am constantly updating my skills set and try to keep it as broad as possible. This allows many of my skills to transfer from one application to another and allows me to quickly get up to speed in different environments. In addition to this, I'm prepared to learn and refine skills in applications which may be required for a job.
